EXECUTIVE EDITOR'S NOTE

Alhamdulillah. We are delighted to publish our 6th and 7th Manarat International University Studies (MIUS) issues. The 6th issue contains seven articles, and the 7th includes nine articles from various fields such as business studies, arts and humanities, social sciences, and Islamic studies.

All the articles are research-based, reflecting the scientific, logical, and systematic results. Here, all the authors have made their significant contributions to the concept, design, execution, and interpretation of the research study. MIUS is a peer-reviewed journal, and articles are selected for publication on the recommendations of two reviewers and the Editorial Board.

We are publishing this journal (MIUS) biennially. Although we invite articles twice a year, receiving articles from the interested authors is a continuous process. So, we welcome all the authors to send their articles to the address of the managing editor at any moment. The Editorial Board will make a short list of the available articles to send to two reviewers in their respective fields.

It is our pleasure to mention the spontaneous cooperation and encouragement of our Editor-in-Chief, Prof. Dr. Mohammad Abdur Rob, to produce a quality journal to enhance the standard of MIU. We are very grateful to the members of the Editorial Board, who are extending their helping hands to publish these issues.

We are also thankful to our authors, reviewers, and proofreaders who greatly enhance our journal's quality and standard. We are grateful to the personnel who have begun to format and organize this journal efficiently.

We have attempted to produce an outstanding publication; still, there may be a chance of mistakes and errors. We shall be delighted if the readers do not hesitate to report those, if any, at their earliest convenience.
